

Phospholipids

Live Smart... with Phospholipids from Vitamark.

Phospholipids are a source of essential fatty acids derived from soy lecithin. They support your circulation, liver function and general sense of well-being. To provide a high quality product, Vitamark delivers a phosphatide blend that contains the purest forms of phosphatidyl choline and phosphatidyl inositol at a 61% concentration. (Compare that to the 10-20% concentration common in other products on the market!)

Essential fatty acids*

Supports liver function*

Promotes a general sense of well-being*
